

Four basic estate planning documents

The following information and opinions are provided courtesy of Wells Fargo Bank, N.A.

A comprehensive estate plan involves more than just a will. Here are the four basic documents that everyone should consider.

1. Will

The document everyone typically thinks of first when they think of estate planning, a will is a legal document that becomes effective at your death to transfer your assets to whomever you like. A will has to be admitted to probate, a court-supervised procedure that in many states can be lengthy and expensive. Even if you have a revocable living trust (discussed below), a will is still necessary as a “backstop” and may provide guidance regarding guardianship of your minor children.

2. Revocable living trust

A revocable living trust is another document that sets forth where your assets pass at your death, but it is designed to provide two benefits that a will does not: probate avoidance and incapacity planning.

A trust is a legal arrangement between three parties: the person creating the trust (known as the grantor, trustor, or settlor), the trustee (who takes legal title to the property),

and the beneficiary or beneficiaries for whom the trust is administered. In the case of revocable living trusts (“revocable,” meaning it can be revoked, and “living,” meaning it is created during the grantor’s lifetime), the same person can play all three roles; the details of the trust specify how and when assets pass to beneficiaries. The grantor has control over the assets held in the trust, even though the grantor no longer owns those assets individually. Successor trustees can be named to oversee the trust assets in the event the grantor can no longer act as trustee.

It is important to note that a trust agreement operates only over those assets held in the name of the trust. If a grantor creates a trust but fails to transfer assets to it (known as “funding the trust”), it may not work as it was intended.

3. Durable power of attorney

Under a durable power of attorney, you appoint another person (known as your “agent”) to handle your financial matters when you are not able to act for yourself. A durable power of attorney addresses aspects of your assets that fall outside the revocable living trust, including personal taxes, certain bank accounts, investments, business ownership interests, and types of insurance. This means, of

course, that you have to select your agent carefully. Even with a revocable living trust, a power of attorney may be necessary to be able to handle financial matters that don't involve trust assets, such as dealing with the IRS or government agencies.

4. Advanced health care directive

This document does two things: it appoints an agent who can make medical decisions on your behalf when you are unable to do so, and gives directions for the care you want to receive in different situations. Some states use a combination of different documents to appoint an agent and state your directions, including a health care power of attorney, health care proxy, and/or a living will.

Consult with your advisors

A well-thought out estate plan deals not only with the disposition of your assets at death, but also care of yourself and your wealth during your lifetime. Such a plan will incorporate many, if not all, of the documents described above. For more information on which documents may be most appropriate for you and how they should be structured for your specific situation, talk to your estate planning attorney.

Wells Fargo & Company and its affiliates do not provide tax or legal advice. This communication cannot be relied upon to avoid tax penalties. Please consult your tax and legal advisors to determine how this information may apply to your own situation. Whether any planned tax result is realized by you depends on the specific facts of your own situation at the time your tax return is filed.

Wealth & Investment Management offers financial products and services through affiliates of Wells Fargo & Company. Bank products and services are available through Wells Fargo Bank, N.A.
